

YOU ARE INVITED

to share your expertise at a
Kidney Function Roundtable Dinner

Hyatt Regency Orlando
9801 International Drive
Celebration Breakout 2

Thursday, November 3
6:15 - 8:00 p.m.

Seated dinner with open bar

Suneel Udani, MD has collaborated with Numares Health to develop the content for this roundtable discussion to:

- Better understand clinical viewpoints for assessing kidney function when neither creatinine nor cystatin C assays provide sufficient accuracy
- Explore current and potential biomarkers to assess risk and identify the best therapeutic approaches for patients with impaired kidney function
- Review the broader application of nuclear magnetic resonance (NMR) spectroscopy for routine kidney function assessment

SEATING IS LIMITED
Registration Required
